Via Christi Hospitals
Wichita, KS
SITE PERFORMANCE DATA – Required Clerkships
CLASS of 2013

This report provides information about each of the required third year clerkships at this site. The information includes the top fifteen problems reported by students along with the top fifteen procedures or activities reported in each clerkship.

These presenting problems and procedures or activities were recorded by the student in their electronic log (TRes). In some cases, several similar events are reported together in order to capture more information about student performance. An example of this is the report for "Pneumonia" which captures "bacterial pneumonia"," viral pneumonia", and "other pneumonia". Up to 25 different reports may be reflected in the top 15 presenting patient problems and top 15 procedures or activities.

Shown are the average number of experiences by students at this site and the percentage this represents of all reported events at this site. Data are provided to compare the students at this site with the average reported by all KCUMB-COM students.

Prepared by Curricular Affairs
Kansas City University of Medicine and Biosciences
College of Osteopathic Medicine

For additional information about student performances and electronic log reports, contact Dr. Linda Adkison, Associate Dean for Curricular Affairs (ladkison@kcumb.edu or 816-654-7312).

FAMILY MEDICINE 301

Top Fifteen Presenting Patient Problems Reported by KCUMB-COM Students during 2011-2012.

Patient Presenting Problems

1. Diabetes type 2
2. Hypertension
3. Back pain
4. Sinusitis
5. Joint pain
6. Limb pain
7. Anxiety
8. Upper respiratory infection
9. Cough
10. Hypercholesterolemia
11. Depressive disorder
12. Abdominal pain
13. Asthma
14. Urinary tract infection
15. Rash

For these reported presenting problems, the following comparisons are provided:

Mean Number of 15 Most Common Problems Per Student at Site	Percent of All Problems Reported at Site	Mean Number of 15 Most Common Problems Per Student at KCUMB-COM	Percent of All Problems Reported at KCUMB-COM
85.67	34.69%	62.62	33.54%

Top Fifteen Procedures and Activities Reported by KCUMB-COM Students during 2011-2012.

Procedures/Activities

1. Office visit
2. History and physical
3. Medication review/refill
4. Patient rounds
5. Patient education
6. Inpatient visit
7. OMM
8. Imaging
9. Venipuncture
10. PAP smear
11. ECG
12. Breast exam
13. Surgical procedure
14. Muscular injection
15. Health & behavior assessment

For these reported procedures/activities, the following comparisons are provided:

Mean Number of 15 Most Common Procedures/Activities Per Student at Site	Percent of All Procedures/Activities Reported at Site	Mean Number of 15 Most Common Procedures/Activities Per Student at KCUMB-COM	Percent of All Procedures/Activities Reported at KCUMB-COM
247.00	96.42%	188.00	86.03%

FAMILY MEDICINE 302

Top Fifteen Presenting Patient Problems Reported by KCUMB-COM Students during 2011-2012.

Patient Presenting Problems

1. Diabetes type 2
2. Hypertension
3. Back Pain
4. Sinusitis
5. Upper respiratory infection
6. Cough
7. Hypercholesterolemia
8. Joint pain
9. Limb pain
10. Anxiety
11. Depressive disorder
12. Urinary tract infection
13. Bronchitis/Bronchiolitis
14. Asthma
15. COPD

For these reported presenting problems, the following comparisons are provided:

Mean Number of 15 Most Common Problems Per Student at Site	Percent of All Problems Reported at Site	Mean Number of 15 Most Common Problems Per Student at KCUMB-COM	Percent of All Problems Reported at KCUMB-COM
39.42	21.68%	62.73	36.64%

Top Fifteen Procedures and Activities Reported by KCUMB-COM Students during 2011-2012.

Procedures/Activities

1. History and physical
2. Office visit
3. Medication review/refill
4. Patient education
5. Inpatient visit
6. Emergency Dept. visit
7. Patient rounds
8. PAP smear
9. Venipuncture
10. Imaging
11. Blood pressure monitoring
12. Breast exam
13. OMM
14. Nursing facility patient care
15. Labs or chart review

For these reported procedures/activities, the following comparisons are provided:

Mean Number of 15 Most Common Procedures/Activities Per Student at Site	Percent of All Procedures/Activities Reported at Site	Mean Number of 15 Most Common Procedures/Activities Per Student at KCUMB-COM	Percent of All Procedures/Activities Reported at KCUMB-COM
166.00	91.02%	152.00	88.63%
